## Valuation of Hospitality and Leisure Property

Cape Town, 22nd – 24th February 2021

**UNIVERSITY OF CAPE TOWN**  
IYUNIVESITHI YASEKAPA • UNIVERSITEIT VAN KAAPSTAD

# Objectives

The course aims to provide knowledge and skills in the valuation of hospitality and leisure property, which is a key segment of the commercial property market. Hospitality and leisure properties include hotels, guesthouses, casinos, theatres, restaurants, bars and nightclubs. On completion of this course, participants will be able to:

- Understand factors that determine the market value of hospitality and leisure property.
- Undertake research of the hospitality and leisure industry for valuation purposes.
- Understand the impact of emerging trends in the industry on the market value of hospitality and leisure property.
- Determine the market value of a range of hospitality and leisure property.

## Who Should Attend

The valuation of hospitality and leisure property is a highly specialised activity. The hospitality and leisure industry has gone through a number of significant changes in the recent past, arising from new forms of ownership and management, as well as the emergence of platforms like AirBnB. This course is designed to respond to these changes. It will be of relevance to all those who have an interest in the hospitality and leisure industry, including investors, professional property valuers, property credit analysts, property investment analysts and property asset/fund managers

## Course Content

- Overview of the (South) African hospitality and leisure industry.
- Emerging trends in the hospitality and leisure industry.
- Types and characteristics of hospitality and leisure property.
- Valuation of specialised property - methods and approaches.
- Methods and techniques for the valuation of hospitality and leisure property.
- Interpretation and analysis of financial statements in the hospitality and leisure industry.
- Valuation case studies and exercises .

## Course Format

The course is intensive and will take place over three days and consists both of theory and valuation case studies. The first day provides an overview of the hospitality and leisure property industry, as well as the theory of the valuation of specialised property, and its application to hospitality and leisure property. The second day is devoted to the interpretation and analysis of financial statements, with a focus on the hospitality and leisure industry. The third day is dedicated to the application of valuation methods and techniques to the valuation of a range of hospitality and leisure property, by way of case studies and practical exercises.
